

Article 2. - Use of Land and Structures**Sec. 201 - Purpose of Article 2.**

This Article defines the zoning districts in the County and identifies the specific uses to which land and structures may be put in the various zoning districts, including certain uses or structures for which special approval is required in order to be allowed. In addition, this Article identifies specific uses within each zoning district to which restrictions may apply, which are presented in Article 3 of this Code.

Sec. 202 - Zoning Map.

The boundaries of the various zoning districts are shown on a map entitled "Official Zoning Map of Douglas County, Georgia" adopted on the date of adoption of this Development Code, and as amended thereafter from time to time.

202 (a) Official Zoning Map adopted.

- (1) The "Official Zoning Map of Douglas County, Georgia" (referred to in this Code as the "Zoning Map") is adopted as the Official Zoning Map and is hereby made a part of this Development Code, and all notations, references and other information shown on it shall be a part of this Development Code.
- (2) The Official Zoning Map as adopted at the time of adoption of this Development Code shall be identified as that map or series of maps signed by the Chairman in office at the time of adoption, and attested by the Clerk of the Board of Commissioners. A certified copy of the zoning map as originally adopted shall be kept on record in the County Clerk's office.
- (3) The Zoning Map as adopted and as may be amended by the Board of Commissioners from time to time sets forth the location of all zoning districts in the County.

202 (b) Amendments to the Zoning Map.

- (1) The Zoning Map, as adopted by the Board of Commissioners and amended from time to time by its action, shall be maintained and available in the Development Services Department. The map as amended from time to time by the Board of Commissioners may be kept in an electronic format from which printed copies can be produced.
- (2) No changes of any nature shall be made to the Official Zoning Map except in conformity with amendments to the map approved by the Board of Commissioners or by adoption of a new Official Zoning Map of Douglas County. Such amendments shall be spread upon the minutes of Douglas County and shall be available for public inspection.
- (3) All zoning district boundary changes and amendments to the Zoning Map shall be noted on the map maintained in the Development Services Department with the date of the zoning change or amendment and reference to the implementing ordinance.

202 (c) Determination of zoning district boundaries.

- (1) The boundaries of the districts as shown on the Zoning Map shall be determined on the basis of the legal descriptions or boundary surveys associated with approved zoning petitions, or, lacking such legal descriptions or surveys, on the basis of the location of the boundary as depicted on the Zoning Map along with any dimensions shown.

(2) All property in the County is placed in the zoning districts as indicated on the Zoning Map, and no property shall be used except in accordance with the zoning designations on the Zoning Map and the provisions of this Code. Where uncertainty exists as to the boundaries of any zoning district, the following rules shall apply:

- a. Where a zoning district boundary line is shown as approximately following the County limits line, a militia district line, a land lot line, a lot line or the center line of a street, a county road, a state highway, a railroad right-of-way, or stream or drainage way, or such lines extended, then such lines shall be construed to be the zoning district boundary lines.
- b. Where a zoning district boundary line is shown as being set back from a street, a county road, a state highway, a railroad right-of-way, or a stream or drainage way, and approximately parallel thereto, then such zoning district boundary line shall be construed as being at the scaled distance from the center line of the street, county road, state highway, railroad right-of-way, stream or drainage way, and as being parallel thereto.
- c. Where a zoning district boundary line divides a lot, the location of the line shall be the scaled distance from the lot lines. In this situation, the requirements of the zoning district in which the greater portion of the lot lies shall apply to the balance of the lot except that such extension shall not include any part of a lot that lies more than 50 feet beyond the zoning district boundary line.
- d. In the case of a double-frontage lot fronting on two separate streets that is divided by a zoning district boundary line approximately paralleling the streets, the restrictions of the zoning district in which each frontage of the through lot lies shall apply to that portion of the lot.

202 (d) Special conditions of previous zoning approvals retained.

All special conditions and special stipulations imposed as conditions of rezoning of property prior to adoption of the Zoning Map are hereby retained and reaffirmed, and shall continue in full force and effect until such time as the property is rezoned or the prior zoning action of the Board of Commissioners is amended through the rezoning process established by this Code.

Sec. 203 - Reserved

Sec. 204 - Zoning districts; established.

For purposes of this Development Code, the following Zoning Districts and Overlay Zoning Districts are established as listed in Table 2.1 along with the Zoning Map symbol and the Comprehensive Plan Future Land Use Map designation that is being implemented by the Zoning District.

Sec. 205 - Zoning districts; relationship to Comprehensive Plan.

205 (a) Application of the Comprehensive Plan.

The *Douglas County Comprehensive Plan* establishes appropriate land use character area categories and a range of preferred zoning districts, development intensities, composed of densities, floor area ratios, or similar measures, for each land area in the county. This Unified Development Code and the County's individual project approvals provide development standards, plan requirements and other factors that shall determine the development intensity of each project within the Comprehensive Plan range. The

County reserves the right to limit projects to intensities below the Comprehensive Plan's upper limits in order to ensure that all elements of the built environment, including land use, transportation, housing, energy, and infrastructure, work together to provide sustainable, green places for living, working, and recreation, with a high quality of life.

Sec. 206 - Zoning districts; conversion of previous districts.

Zoning districts as were established under the previous Zoning Ordinance of Douglas County are hereby renamed to the following zoning district names and designations under this Development Code, as shown on Table 2.2. All regulations, requirements and provisions of this Development Code applicable to a zoning district established under Sec. 204 of this Code shall apply to the previously named zoning district as shown on Table 2.2.

Table 2.1: Conversion of Previous Zoning Districts

	Highway 78 Corridor Overlay	O-HC Highway Corridor Overlay

Sec. 207 - Zoning districts; purpose of each.

All lands in unincorporated Douglas County are included in one or another of the zoning districts established by this Development Code. Overlay districts, which provide additional requirements or restrictions on the portions of these zoning districts over which they are established, are found under Sec. 208 of this Article.

207 (a) AG Rural Agricultural.

The AG Rural Agricultural District is established to protect rural areas of Douglas County in which agriculture, farm operations, conservation lands and timber stands on parcels of 3 acres or more are the established land use pattern, and to provide an environment which encourages residents to continue to live and practice agricultural operations without adverse impact arising from more dense development.

207 (b) R-A Residential-Agricultural.

The R-A Residential-Agricultural District is established to protect and promote a suitable environment for rural or "large lot suburban" family life, agriculture including the raising of livestock and poultry, and the development of natural resources and other uses requiring extensive areas of land. This District is required to protect the future development of land in accordance with the Comprehensive Plan of the county as amended.

207 (c) R-LD Low Density Single-Family Residential.

The R-LD Single-Family Residential District is established to protect and promote a suitable environment for family life, to discourage any use which would generate other than normal residential area traffic on minor streets and to protect the orderly future development of land in accordance with comprehensive development plans for the county.

207 (d) R-MD Medium Density Single-Family Residential.

The R-MD Medium Density Single-Family Residential District is established to protect and promote a suitable environment for family life, to discourage any use which would generate other than normal residential area traffic on minor streets and to protect the future development of land in accordance with comprehensive development plans for the county.

207 (e) R-HD Residential - High Density

The R-HD Residential High Density District is established to protect and promote a suitable environment for family life, to discourage any use which would generate other than normal residential area traffic on minor collector streets, to meet the demands of two, three, four and multi-family residences, townhomes and condominiums and to protect the orderly future development of land in accordance with comprehensive development plans for the county. The intent of this district is to provide standards for higher density dwellings which will:

- (1) Encourage the provision of usable open space and recreation areas and a desirable living environment;
- (2) Be located primarily in areas near or adjacent to low-density or medium density residential use areas;
- (3) Be located so as to provide transition between single-family use areas and higher density dwelling areas and/or commercial areas;
- (4) Be located near such services as retail shopping and major thoroughfares and collector streets.

207 (f) R-MH Manufactured Home Residential.

The R-MH Manufactured Home Residential District is established to protect and promote a suitable environment for family life, to meet the need and demands for the development of manufactured home

residential areas and to protect the future development of land in accordance with comprehensive development plans for the county.

207 (g) PRD Planned Residential Development

The PRD district is established to protect and promote a suitable environment for family life and to encourage flexibility in meeting the needs of families through a mix of housing types and densities in accordance with the land use plan for the County with a development site of at least two acres and adjacent to or in proximity to municipal boundaries.

207 (h) PUD Planned Unit Development.

The PUD district is intended to permit the planning and development of parcels of land that are suitable in location and character for the uses proposed as unified and integrated developments in accordance with detailed development plans. The PUD district is intended to provide a means of accomplishing the following specific objectives: To provide for development concepts not otherwise allowed within non-PUD zoning districts; To provide flexibility, unity, and diversity in land planning and development, resulting in convenient and harmonious groupings of uses, structures and common facilities; To encourage innovations in quality residential, commercial, and industrial development and renewal so that the growing demands of the population may be met by greater variety in type, design, and layout of buildings and by the conservation and more efficient use of open space; To lessen the burden of traffic on streets and highways; and To provide a procedure that can relate the type, design, and layout of residential, commercial, and industrial development to the particular site, thereby encouraging preservation of the site's natural characteristics.

207 (i) OI Office Institutional

The Office Institutional District is established to promote an office environment allowing low rise, mid-rise and high-rise office buildings and accessory retail uses. This zone is intended to be located in or adjacent to heavy concentrations of commercial or light industrial uses such as business districts or nodes, interchange areas, or industrial or office parks. The District also functions as a transitional zone from commercial and light industrial uses to less intensive uses such as single-family residential and multi-family uses.

207 (j) C-G General Commercial.

The C-G General Commercial District is established to protect and promote a suitable environment for those retail commercial uses that benefit from close proximity to each other. The District is intended to serve as the location of regional and sub-regional centers for retailing, finance, and professional and general office activities. Its primary purpose is to group their uses together in a compact area designed to accommodate pedestrian movement. General commercial areas are characterized by shopping centers containing department stores, big box retailers such as Home Depot and PetSmarts, discount clubs and retail and service establishments serving a wide market area. Commercial uses commonly found in neighborhood and community commercial areas also are found in general commercial areas.

207 (k) C-H Heavy Commercial.

The C-H Heavy Commercial District is established to protect and promote a suitable environment for those commercial uses that benefit from direct access to major streets or are located on major streets and thoroughfares that are classified as major arterial roads or interstate highways. Such uses commonly generate loud noises and require large areas for open storage, or generate substantial motor vehicle traffic.

207 (l) PSP Public-Semi Public.

The PSP Public-Semi Public district is established to provide a district for public, quasi-public and semi-public uses, including government buildings, schools and publicly owned parks and recreation facilities, in accordance with the comprehensive plan for the county.

207 (m) LI Light Industrial.

The LI Light Industrial District is established to protect and promote a suitable environment for light industrial purposes, and uses that require both office and distribution facilities at the same site, as well as related and compatible commercial uses and appropriate accessory uses and including accessibility to major transportation facilities, availability of adequate utilities and other public services, and availability of large quantities of suitable land. Uses compatible with light industrial development are to be encouraged insofar as they are in accordance with comprehensive development plans for the county.

207 (n) LI-R Restricted Light Industrial.

The LI-R Restricted Light Industrial District is established to protect and promote a suitable environment for high quality, visually attractive, stable, light industrial, electronics and cyber research and development, data storage and administrative facilities and offices.

207 (o) HI Heavy Industrial.

The HI Heavy Industrial District is established to protect and promote a suitable environment for heavy industrial uses including accessibility to major transportation facilities, availability of adequate utilities and other public services, and availability of sufficient quantities of land to adequately support such establishments. Uses compatible with light and heavy industrial development are to be encouraged insofar as they are in accordance with the Comprehensive Plan of Douglas County.

Sec. 208 Overlay districts; generally and purposes of each.

As the name implies, overlay districts “over-lay” applicable base zoning district classifications to alter some or all of the base zoning district regulations that apply to particular sites. Overlay zoning districts work to modify or supplement the regulations imposed by base zoning district when necessary to address special situations or promote specific county planning goals. Overlay zoning is intended to be used when the base zoning district applied to an area remains generally appropriate, but when an additional, modified or eliminated requirement could help implement the county’s planning goals or address an area-specific planning, design or land use regulation issue. All applicable regulations of the underlying base zoning district and of this Development Code apply to property in an overlay district unless otherwise expressly stated in the overlay district regulations. When overlay district regulations conflict with regulations that otherwise apply in the underlying base zoning district or with regulations otherwise imposed by this Development Code, the more restrictive regulations govern.

208 (a) O-ED Estate Density Overlay District.

The O-ED overlay district is established to protect and promote a suitable environment for rural or "large lot suburban" family life, agriculture including the raising of livestock and poultry, and the development of natural resources and other uses requiring extensive areas of land. This overlay district is required to protect the future development of land in accordance with the comprehensive plan of the county as amended. See the Estate Density Regulations of the Lot and Building Standards Article of the code for provisions relating to the O-ED Overlay District.

208 (b) O-EO Watershed Protection Overlay.

The purpose of the O-EO Watershed Protection Overlay District is to establish measures to protect the quality and quantity of the present and future water supply of Douglas County, as well as the City of East Point and jurisdictions downstream from Douglas County; to minimize the transport of pollutants and sediment to the water supply; and to maintain the yield of water supply watersheds. The O-EO Watershed Protection Overlay District is composed of the following Watershed Protection Areas corresponding to the topographical features that delimit the drainage basins of the following respective creeks, rivers and reservoirs:

- (1) Dog River (sub-watershed A);
- (2) Dog River (sub-watershed B);
- (3) Bear Creek;
- (4) Anneewakee Creek;
- (5) Sweetwater Creek;
- (6) Sweetwater Creek/ East Point Basin sub-watershed;
- (7) Sweetwater Creek/ Sparks Reservoir Basin sub-watershed;
- (8) Hurricane Creek; and
- (9) Chattahoochee River Direct Drainage Basin (in areas not regulated by the Metropolitan River Protection Act).

See the Watershed Protection Division of the Environmental Protection Article of this Code for provisions relating to the O-EO Overlay.

208 (c) O-GW Groundwater Recharge Area Protection Overlay.

The O-GW Groundwater Recharge Area Protection Overlay District is established to protect the quality of groundwater by regulating land uses within significant groundwater recharge areas. This is necessary to protect the public health, safety, and welfare, particularly those persons and communities who rely on groundwater as their source of potable water supply

See the Groundwater Recharge Area Protection Division of the Environmental Protection Article of this Code for provisions relating to the O-GW Overlay.

208 (d) O-WP Wetlands Protection Overlay.

The O-WP Wetlands Protection Overlay District is established to promote the protection of wetlands in Douglas County, which are indispensable, fragile natural resources with significant development constraints due to flooding, erosion, and soils limitations. Furthermore, they provide habitat areas for fish, wildlife, and vegetation; water quality maintenance and pollution control; flood control; erosion control; opportunities for study and education; and open space and recreational opportunities.

See the Wetlands Protection Division of the Environmental Protection Article of this Code for provisions relating to the O-WP Overlay.

208 (e) O-QGD Quality Growth Development Overlay.

The O-QGD Quality Growth Development Overlay District is established to promote high quality development in areas of the county that are largely undeveloped but in the path of rapid, substantial residential, commercial, or industrial development that is anticipated will radically change the character of the lands within the District boundaries. This District is designed to encourage high quality development by establishing restrictions and standards to protect the natural environment, promote optimum development, and so that investment values will be maximized and will not be endangered by unsightly, undesirable, or incompatible developments springing up on adjacent properties in the foreseeable future.

See the Quality Growth Development District Standards Section of the Lot and Building Standards Article of this Code for provisions relating to the O-QGD Overlay.

208 (f) O-LF Landfill Overlay.

The O-LF Landfill Overlay District is established in order to protect properties near existing or previously closed solid waste disposal facility from well-water contamination and from the buildup of methane gas within enclosed buildings. It is the intent of this overlay district to maintain compliance with requirements imposed by the Georgia Department of Natural Resources, Environmental Protection Division (Chapter 391-3-4, Solid Waste Management).

208 (g) O-AH Airport Hazard Overlay.

The O-AH Airport Hazard Overlay District is established to provide areas to be used as either public or private airfields, and to create compatible use zones. See the Airport Zone Restrictions Division of the Restrictions on Particular Uses Article of this Code for provisions relating to the O-AH Overlay.

208 (h) O-HC Highway Corridor Overlay

The O-HC Highway Corridor Overlay district is intended to accommodate and promote high- quality, well-designed development that is in keeping with the existing and desired character of the county's major highway corridor areas. The overlay is further intended to ensure consistency with the Douglas County comprehensive plan and with other adopted plans and policies of the county.

See the Highway Corridor Overlay District Standards Section the Lot and Building Standards Article of the code for provisions relating to the O-HC, Highway Corridor.

Sec 208(i) Master Planned Developments and Mixed Use Master Plan Overlay (legacy)

Projects approved as a special use permit as a Master Planned Development or Mixed use Master Plan Development prior to December 5, 2020 may continue to develop in accordance with the conditions, stipulations, regulating documents, and concept plans approved under the special use permit. No new Master Planned Developments or Mixed Use Master Plan Developments will be approved by special use permit after December 5, 2020.

Sec. 209 - Reserved.

Sec. 210 - Uses allowed in each zoning district.

This Section identifies the uses that are allowed by right or by Special Use approval in each of the zoning districts and uses to which certain restrictions apply.

210 (a) Allowed principal and accessory uses.

- (1) A Principal Use is the specific, primary purpose for which land or a building is used.
- (2) An Accessory Use is a use that is permitted on a property in conjunction with a principal use. An accessory use is incidental to the principal use and would not exist independent of the principal use.
- (3) Principal uses that are allowed by right or allowed only by Special Use approval in each zoning district are shown on the following Table 2.2. Accessory uses that are allowed in conjunction with a principal use are shown on Table 2.3.

210 (b) Restrictions on particular uses.

Requirements that apply to certain uses are listed in the Restrictions on Particular Uses Article of this Code (Article 3). For those uses that have specific restrictions associated with them, a reference is given on the two tables to the pertinent Section in Article 3. The provisions of Division 1 of Article 3 that apply to development in general, Division III, Airport Zone Restrictions, and Division IV, Prohibited Uses, however, are not indicated in either of the two tables.

210 (c) Special Uses.

Principal uses that are Special Uses may be granted subject to Special Use approval procedures as set forth in the Procedures and Permits Article of this Code.

210 (d) Prohibited uses.

- (1) Any principal use not shown on the following Table 2.2 as allowed in a zoning district, whether by right or with approval as a Special Use or as a use permitted with restrictions, is specifically prohibited.
- (2) Any accessory use not shown on the following Table 2.3 as allowed in a zoning district, whether by right or with approval as a Special Use or as a use permitted with restrictions, is specifically prohibited.
- (3) In addition, uses, products and manufacturing processes that are specifically prohibited in all zoning districts are listed in Division IV of Article 3.

(4) No person shall discharge a firearm within five hundred feet (500') of a residential structure, except for personal protection and the protection of property.

210 (e) Interpretation of uses.

- (1) In addition to other generally accepted references and resources, the North American Industrial Classification System (NAICS), published by the U.S. Department of Commerce (2017 edition), may be referred to in order to interpret the definition of uses listed on Table 2.2 and Table 2.3 and to identify similar uses that may be allowed along with each listed use. The NAICS classification number is shown on the tables for each applicable use for reference and interpretation only; the NAICS is not adopted as part of this Code.
- (2) The NAICS assigns classification numbers to businesses and industries based on the primary business activity in which the company is engaged. While business activity usually corresponds to land use type, and therefore can be easily assigned to appropriate zoning districts, there are exceptions. Some businesses may be primarily engaged in a certain industry—such as telecommunications, for instance, like BellSouth—but individual locations host notably different activities. For a company like BellSouth, for instance, different facilities may include retail stores for telephones, offices for administrative functions, satellite and exchange switching stations, and repair and installation staging lots where heavy equipment vehicles, telephone poles, wire spools and materials are stored. As a result, interpretation is occasionally needed for an individual use, regardless of the business activity in which the parent company is engaged.
 - a. If no NAICS classification number is shown on the table, there is no corresponding category to the land use listed. The use may be residential in nature (there are no NAICS categories for residences) or may be a land use activity not generally recognized as a business activity or industry type.
 - b. In all cases of uncertainty, the determination of whether or not a particular use is allowed in a particular zoning district shall reflect the purpose of the zoning district as stated in this Article, both the common and dictionary definitions of the use, and the array of listed uses that are allowed in the district as to their character and intensity.

210 (f) Tables

Table 2.2 organizes the various principal uses under the following headings:

- Agriculture, Forestry, Fishing and Hunting
- Residential Uses
- Administrative and Professional Offices
- Commercial Services
- Arts, Entertainment and Recreation
- Retail Trade
- Manufacturing, Wholesaling and Warehousing
- Transportation, Communications and Utilities
- Public and Institutional Uses

Table 2.3 presents the various accessory uses allowed in each zoning district.

O-HC, Highway Corridor Overlay explanation. Table 2.2 and 2.3 present principal and accessory uses that are allowed by right or allowed only by Special Use approval within all the base zone districts. When looking at the O-HC, Highway Corridor Overlay District, the following information applies. Allowable uses are represented by a “B” where a use is allowed only if it is permitted in the base zone district (that means it could be by right or by special use in the base district-but it would be likewise allowed in the O-HC). An “S” appears if the use is allowed by special use approval regardless of the base zone district designation. If no designation appears, the use is not permissible within the highway corridor overlay boundary regardless of whether it is permissible in any base zone district.
