

Office of Risk & Safety

Organizational Training Class

Course Name: Personal Protective Equipment (PPE)

Duration: 60 Minutes

Video Included: Yes

Instructor: TBD

Course Description: The objective of this class is to explain the proper use and the different types of Personal Protective Equipment (PPE) available. The purpose of PPE is to protect employees exposed to workplace hazards by creating a barrier between them and the risk of injury. Employees will learn the correct PPE for the task. Lost or damaged PPE must be reported to their supervisors immediately. Please Contact Risk and Safety for PPE training or questions about maintenance or usage.

- Clothing
- Chainsaw chaps policy
- Communication device policy (when working alone)
- Hand protection
- Eye protection
