

# TRANSIT MASTER PLAN FACT SHEET

Douglas County is currently developing the county's first Transit Master Plan (TMP) since implementation of fixed-route transit service. The TMP will serve as a roadmap for improving public transit in the county by:

- › Identifying short-, mid-, and long-term transit priorities
- › Providing direction and guidance for development of a public transportation program
- › Informing County decision-makers
- › Leveraging funding to increase ridership and improve performance

Transit services in Douglas County are provided via Connect Douglas (formally known as Douglas County Rideshare). Connect Douglas is a mobility-oriented service, operated by the Douglas County Department of Transportation, that operates transportation services, builds and maintains commuter facilities, and actively engages in transit and public transportation planning and marketing.

## our mission

To operate, maintain, expand, and develop a safe, efficient, and balanced transportation system that supports existing and future travel demand by offering viable, multiple-mode choice alternatives, that meet quality of life expectations for all Douglas County citizens.

## project schedule

### Jan – Mar 2023

Lead Existing Conditions and Future Trends Assessment

### Mar – Jun 2023

Conduct Transit Service Needs Assessment and Market Analysis

### Jun – Jul 2023

Develop Phased Transit Service Recommendations

### Jul – Aug 2023

Perform Financial Analysis

### Sep – Nov 2023

Prepare Transit Master Plan

There will be multiple opportunities for public input throughout the plan development process. Opportunities will include:

Stakeholder Interviews

Community Workshops and Pop-ups

Website/ Social Media Engagement

Targeted Community Outreach

Community Surveys

QR Code for Survey  
(Available in English and Spanish)

Additional details about the TMP, including opportunities for public input, will be posted on the Douglas County website:
